

## UPDATING SUPPLIER SITE

Once you log into the system your screen could appear as one of the two options shown below:

### Hamburger Style

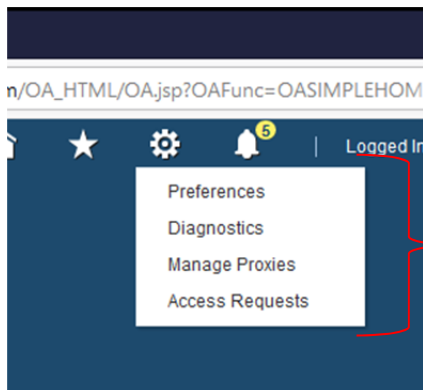

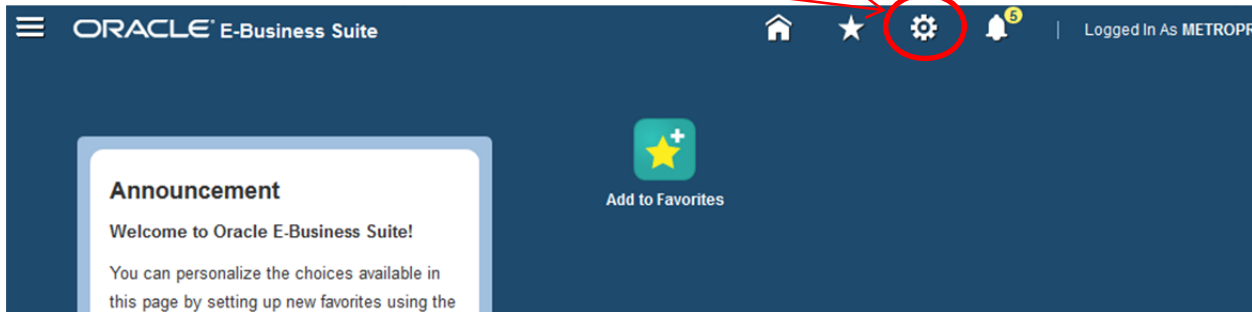

### Tree Style

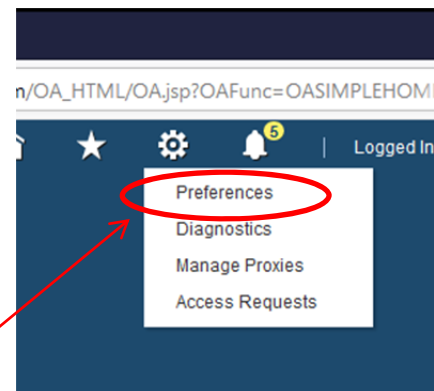

The default setting is the hamburger style. If you prefer the Tree Style follow the instruction starting on Page 6 to change.

## UPDATING SUPPLIER SITE

Change login screen view by 1) clicking the gear at the top center of the webpage.

2. Various options will pop down.

3. Select Preferences

## UPDATING SUPPLIER SITE

4. Several general preference options will display

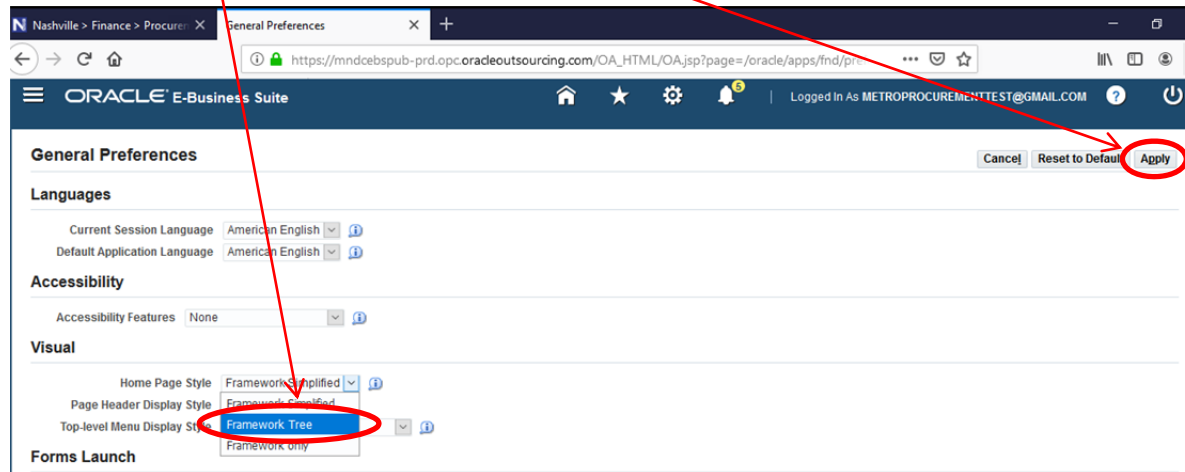

The screenshot shows the 'General Preferences' page in the Oracle Supplier Management system. The 'Visual' section is expanded, and the 'Home Page Style' dropdown menu is open, showing three options: 'Framework Simplified', 'Framework Tree', and 'Framework only'. A red arrow points to the 'Home Page Style' dropdown. The page also shows other sections like 'Languages', 'Accessibility', and 'Forms Launch'.

5. Look under Visual > Home Page Style and select the drop down

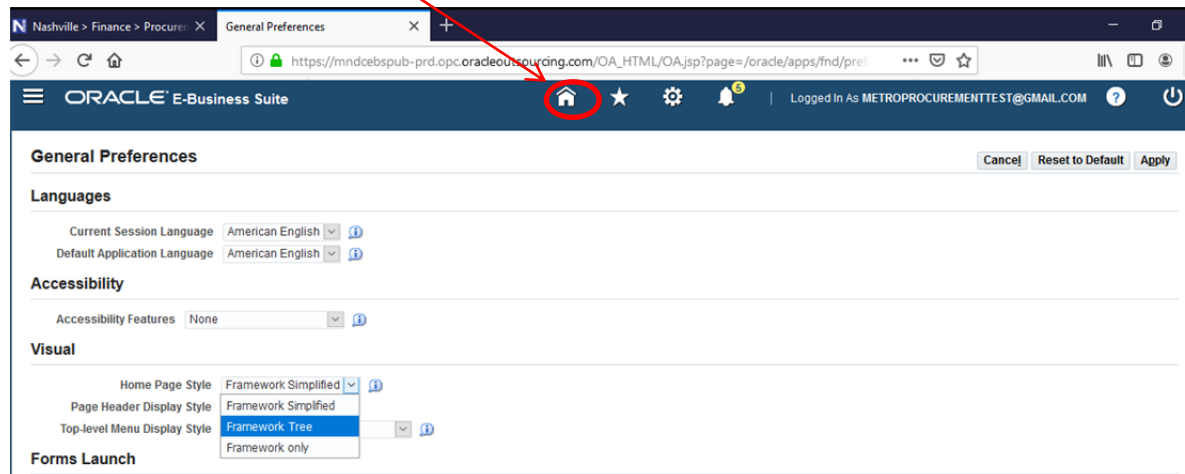

**Note:**  
**Framework Simplified is the Hamburger Style**  
**Framework Tree is the Tree Style**

## UPDATING SUPPLIER SITE

6. Then select Framework Tree then click apply.

7. You will need to click the House icon (home)

Screen should appear in the selected style.
