# Council District Map & List of Councilpersons

## Frequently Asked Questions

## How can I determine the current zoning on a property in my district?

The Planning Department's online mapping system includes zoning and land use policy, along with maps, aerial photos, and many other types of information.

Our **online property map** at <a href="http://www.nashville.gov/Planning-Department/Mapping-and-GIS/PropertyMapping.aspx">http://www.nashville.gov/Planning-Department/Mapping-and-GIS/PropertyMapping.aspx</a> provides zoning and other information.

## What services does the Planning Department provide?

The **Land Development Division** is responsible for the day-to-day administration of the Zoning Code for Planned Unit Development Overlay Districts, Institutional Overlay districts and Specific Plan districts and Subdivision Regulations for Nashville and Davidson County. The **Community Plans/Design Studio** team works to improve Nashville's livability by focusing on the unique qualities of our physical environment and building on those qualities to strengthen our neighborhoods, corridors, and districts. The **Mapping/GIS** office provides maps and spatial data to the Planning Department, the community, and other Metro departments.

To speak with a staff member, call our receptionist at (615)862-7150 or use the online directory at <a href="https://www.nashville.gov/Planning-Department/Staff-Directory.aspx">https://www.nashville.gov/Planning-Department/Staff-Directory.aspx</a>. If you have a question about an application, call our customer service desk at (615)862-7190 or email <a href="mailto:planningstaff@nashville.gov">planningstaff@nashville.gov</a>.

# How can I find out what development is currently before the Planning Commission in my district?

The Planning Department's "Development Tracker" interactive map at <a href="http://maps.nashville.gov/developmenttracker/">http://maps.nashville.gov/developmenttracker/</a> shows currently active applications to the Planning Department and monitors their status as they move through staff review, the Planning Commission, and the Council.

## How can I find out what's on the next Planning Commission agenda?

Electronic copies of each agenda, as well as staff reports, are posted on our Meetings, Deadlines, and Hearings page at <a href="https://www.nashville.gov/Planning-Department/Meetings-Deadlines-Hearings.aspx">https://www.nashville.gov/Planning-Department/Meetings-Deadlines-Hearings.aspx</a> on the Friday before each Planning Commission meeting. The Planning Commission generally meets on the second and fourth Thursday of each month. Only one meeting is typically held in July and December. Metro offers an online signup at <a href="https://public.govdelivery.com/accounts/TNNASH/subscriber/new">https://public.govdelivery.com/accounts/TNNASH/subscriber/new</a> to receive agendas of all Metro boards and commissions by email.

The Planning Department emails the new application review packet for cases in your Council district after each filing deadline, which is at least six weeks before each case will be discussed by the Planning Commission. (Note: Some cases do not go to the Planning Commission and can be approved by staff.)

Those applications also appear on the Development Tracker interactive page at <a href="https://maps.nashville.gov/DevelopmentTracker/">https://maps.nashville.gov/DevelopmentTracker/</a>. On the Friday before each Planning Commission meeting, the Planning Department emails a copy of the staff report for projects in their district to every Councilmember.

Councilmembers present at the Planning Commission meeting are recognized as the meeting opens and may address the Commission then, or when the item the Councilmember wishes to speak on is before the Commission.

Applicants and members of the public may address the Commission as their applications are heard. Applicants may speak for up to ten minutes, including two minutes for rebuttal. Individuals are limited to two minutes. Representatives of specific organizations (for example, homeowners' associations and neighborhood groups) may speak on behalf of the organization for up to five minutes (if the Chairman is notified in advance). Councilmembers have no time restrictions.

## Where can I look up the zoning code online?

A direct link is available at <a href="https://www.municode.com/library/tn/metro">https://www.municode.com/library/tn/metro</a> government of nashville and davidson county/codes/code of ordinances.

## How does NashvilleNext affect zoning?

NashvilleNext is a set of goals, policies, actions, and plans, approved by the Planning Commission in June 2015, which will guide growth, development, and preservation in Davidson County through 2040.

NashvilleNext does not rezone properties. It does include the fourteen Community Plans which apply Community Character policies to property throughout the county. These community character polices guide zone changes and, in some cases, subdivision decisions.

More specific information on Community Character policies, and a map of policies in this Council district, is on pages 18 and 19.

Metropolitan Planning Department Metro Office Building 800 Second Avenue South, PO Box 196300 Nashville, TN 37219-6300

## About the Metro Planning Department

The Metropolitan Planning Department is committed to keeping the community we serve informed and involved as decisions are made about growth, development, and preservation. Public understanding of and involvement in the changes to our community are two of the Planning Department's core responsibilities. The community is best served when residents, property owners, business owners, institutions, and other stakeholders are informed and have the opportunity to participate.

To that end, we work closely with the Metropolitan Council and reach out to the community through public meetings, printed and online publications, social media, and personal contact. We also keep Councilmembers and the community informed of specific development proposals in their area.

Our interactive "Development Tracker" map at <a href="http://maps.nashville.gov/">http://maps.nashville.gov/</a>
<a href="DevelopmentTracker/">DevelopmentTracker/</a> provides updates on new development applications which have been submitted to the Planning Department. That link connects to an interactive map which leads to detailed information on each application and where it is in the review and approval process.

Nearly fourteen hundred people speak directly with our Customer Service Desk every month, by phone or in person. The planners at that desk also handle nearly as many emails in addition to in-person contacts. The Customer Service Desk is part of Metro's Development Services Center, a "one-stop shop" on the first floor of the Metro Office Building which provides convenient access to all of Metro's development-related departments.

## **Community Plans**

Changes to the Community Plans begin with public meetings, where planners listen to community members' vision for future development. These meetings offer opportunities for public review and comment as the plans are developed and updated. All fourteen Community Plans were updated in 2015 as part of "NashvilleNext," the long-range plan for growth, development, and preservation in Davidson County.

NashvilleNext was the result of nearly three years of public outreach and discussion. The Planning Commission approved NashvilleNext by a unanimous vote in June 2015. A minor update was adopted in 2017.

# The Metro Council and the Planning Commission: Zone Changes

Planning Department staff members review development applications and make recommendations to the Planning Commission with input from property owners, the community, Councilmembers and other Metro agencies. These recommendations are also based on good planning principles and the Community Character policy for that property.

The Commission then makes recommendations to the Council on zone changes. A recommendation of approval requires a simple majority of the Council on third reading for Council approval, and a recommendation of disapproval requires 27 votes for Council approval on third reading.

## **Metropolitan Planning Commission**

## Responsibilities

The Planning Commission reviews and recommends to the Metro Council on all of the following:

- Zoning changes (base zoning and overlay districts)
- · Zoning Code text amendments
- Mandatory Referrals, including street and alley closures, street renamings, Metro property leases/sales/purchases, real property donations to Metro, sign/awning/fiber optic cable and improved easement encroachments, and water/sewer/drainage abandonments
- Capital Improvements Budget

The Planning Commission reviews and approves:

- Subdivision plats
- Minor changes to planned unit developments (PUDs) and urban design overlay districts (UDOs)
- Detailed neighborhood design plans (DNDPs)
- Community plan updates and amendments
- Bonds for developments

The Planning Commission also reviews and makes recommendations to the Board of Zoning Appeals on all Special Exceptions within Metro.

## Membership

The Metropolitan Planning Commission is made up of 10 members who serve a four-year term without compensation, excepting the Metro Councilmember, who serves a two-year term. Commissioners must be residents of Davidson County.

Eight of the 10 members are appointed by the Mayor and confirmed by a majority vote of the Metro Council. The ninth member is the chair of the Metro Council's Planning & Zoning Committee, and the tenth member is the Mayor or his/her designee.

## Commissioners, Fall 2019

Greg Adkins, Chairman
Jessica Farr, Vice-Chairman
Lillian Blackshear
Jeff Haynes
Brian Tibbs
Ron Gobbell
Dr. Pearl Sims
Daveisha Moore

Planning Department customer service desk, (615)862-7190

planningstaff@nashville.gov

### Meetings

The Planning Commission's regular meetings are held at **4:00 pm on the second and fourth Thursday** of each month. Meetings are held in the **Sonny West Conference Center** on the ground floor of the Howard Office Building, **700 Second Avenue South**. There is typically only one meeting in July and December.

Meetings are carried live on Metro 3, Metro government's access channel, and streamed live at <a href="https://www.nashville.gov/Information-Technology-Services/Cable-Television-Services/Metro-Nashville-Network/Live-Streaming.aspx">https://www.nashville.gov/Information-Technology-Services/Cable-Television-Services/Metro-Nashville-Network/Live-Streaming.aspx</a>

Agendas and staff reports are posted online on the Friday before each meeting at: <a href="https://www.nashville.gov/Planning-Department/Meetings-Deadlines-Hearings">https://www.nashville.gov/Planning-Department/Meetings-Deadlines-Hearings</a>.

## **Staff Reports**

A staff report including background information and Planning Department staff's recommendation to the Commission is prepared for all regular agenda items. Copies are emailed to all Councilmembers for proposals in their districts.

Councilmembers and the public can also access reports, agendas, Planning Commission actions, and meeting minutes through the Planning Department website at:

https://www.nashville.gov/Planning-Department/ Meetings-Deadlines-Hearings

## **Planning Commission Actions**

There are multiple actions that the Planning Commission may take regarding an application. These actions are based on regulations, rules, standards, ordinances, and current planning principles.

**Approve:** the application complies and may move forward.

**Approve with conditions:** the application complies, provided the applicant meets certain conditions.

**Defer:** the application is deferred at the request of the applicant or by action of the Planning Commission, and will appear on a future Planning Commission meeting agenda.

**Defer Indefinitely:** the application is indefinitely deferred at the request of the applicant, and will not appear on a future Planning Commission agenda unless the applicant requests it.

**Disapprove:** the application is inconsistent with the policy, goals, and/or objectives of the adopted General Plan, which includes all of the adopted community plans, or violates a regulation, rule, standard, ordinance, or policy of the Metropolitan Government.

**Withdraw:** the application is removed from the Planning Commission's consideration.

## NashvilleNext: The General Plan for Nashville/Davidson County

NashvilleNext is a plan, created by Nashvillians, to guide how and where we grow in Nashville and Davidson County for the next 25 years.

The Planning Commission approved NashvilleNext unanimously in June 2015, after three years of planning and public outreach and participation by over 18,500 community members.

NashvilleNext is not a static document.

Details and background information are on our NashvilleNext webpage at <a href="https://www.nashville.gov/Government/NashvilleNext">www.nashville.gov/Government/NashvilleNext</a>. <a href="https://www.nashville.gov/Government/NashvilleNext">aspx</a>.

It's built on our community's goals and vision of **ensuring opportunity for all, expanding accessibility, creating economic prosperity, fostering strong neighborhoods, improving education, championing the environment** and **being Nashville** – building on our unique strengths as a city and as Nashvillians.

NashvilleNext is not a static document.Work is now underway to accomplish the most pressing action items in NashvilleNext, including:

- Preserving our neighborhoods while building housing close to transit and jobs
- Protecting rural character and natural resources
- Creating walkable centers with jobs, housing and services in suburban and urban areas
- Expanding walking, biking and transit
- Making our city affordable for all Nashvillians

## Many more of us by 2040...

Davidson County's population is projected to grow by more than 186,000 over the next 25 years - and the Middle Tennessee region's by about one million.

## **Guiding Principles**

These seven principles, gathered through extensive community outreach, present the long-term view of what Nashvillians want for their future.

- Ensure opportunity for all
- Expand accessibility
- Create economic prosperity
- Foster strong neighborhoods
- Advance education
- Champion the environment
- Be Nashville

## Key components of NashvilleNext

NashvilleNext provides guidance and direction to a variety of initiatives including:

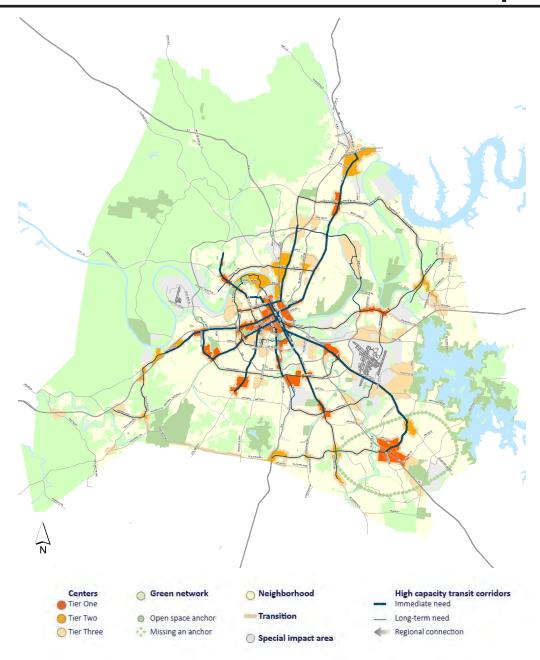

- Community Plans: shaping growth, development, and preservation in each of the 14 community planning areas of the county
- Access Nashville 2040: a comprehensive, multimodal transportation and accessibility plan
- The Major & Collector Street Plan: a comprehensive plan and implementation tool for guiding public and private investment in major streets

## and a much more diverse community

The largest growth will occur in the Hispanic community - and no single ethnic group will have a majority in Davidson County.

# NashvilleNext Growth & Preservation Concept Map

The Growth and Preservation Concept Map visually lays out Nashvillians' vision for how our community should grow and for what should be preserved in the future.

The Concept Map is a tool for aligning our city's spending, regulation, and programs to ensure that new development and redevelopment carries out the community vision. It identifies preservation of a "green network" that provides access to nature and preserves natural resources. It also identifies and preserves the physical character of rural, suburban, and urban neighborhoods.

The Concept Map directs growth toward tiered "activity centers," described in greater detail below. Most of these are in existing concentrations of employment and residential activity. Infill development should be encouraged around these centers, and along transit and multimodal corridors. The map also identifies a network of more frequent and reliable transit service, with high-capacity transit recommended for the most heavily traveled routes.

#### Center

Pedestrian-friendly areas with frequent transit service that contain a dense mix of homes, shops, jobs, and parks, as well as services, schools, and cultural amenities.

TIER ONE

These centers are the focus of coordinated investments to shape growth and support increased transit service in the next ten years.

TIER TWO

These centers receive some investments to manage growth, though less than Tier One centers.

TIER THREE

These centers show areas that could receive coordinated investments in response to opportunities identified by the private sector.

#### Green network

Natural and rural areas that provide natural resources (like farming), ecological services (like cleaning air and water), and passive and active recreation opportunities. They also include sensitive natural features that can be disturbed or destroyed by development or that pose a health or safety risk when developed (such as steep slopes and floodplains).

**OPEN SPACE ANCHOR** 

AREA MISSING OPEN SPACE ANCHOR

#### Neighborhood

Primarily residential areas offering a mix of housing types and character, with smaller civic and employment areas and small neighborhood centers. Neighborhoods have different character, depending on the context (rural, suburban, urban, or downtown).

#### Transitions & infill

Higher density housing that is appropriate along and around corridors and centers to provide a harmonious connection to surrounding neighborhoods.

#### Special impact area

Special impact areas include intense industrial areas, airports, landfills, and other uses that should be kept separate from homes.

A framework of more intense housing and commercial areas along major roadways with more frequent transit service.

Routes with near-term improvements to transit service.

LONG-TERM NEED

Routes for longer-term improvements to transit service.

CONNECTION TO REGIONAL TRANSIT

# **Community Character Manual**

The Community Character Manual (CCM), a part of Volume III of NashvilleNext, provides detailed guidance for the form and function of each community character policy used in community planning in Nashville and Davidson County. These policies guide decisions on zone changes, subdivisions, and infrastructure improvements.

The community character approach to policy is based on the look and feel of neighborhoods, centers, corridors and open spaces. It sets general guidelines for the form of the built environment in seven "transect categories," that range from natural land to intense urban centers.

The CCM is a living document, and can be amended to reflect the community's changing needs and goals. It can be found online at

 $\frac{https://www.nashville.gov/Planning-Department/Community-Planning-Design/CCM.aspx}{Design/CCM.aspx}$ 

# **Community Character Policies for District 11**

## The Transect

Nashville and Davidson County includes natural and rural areas, a variety of distinctive suburbs, and urban communities, as well as a regional economic center (Downtown). The transect describes character and form in different areas of the county and to preserve the diversity and uniqueness of these areas.

### T1 Natural

The county's least-developed areas, usually large expanses of publicly controlled, undisturbed open space, often including environmentally sensitive areas.

#### T2 Rural

Sparsely developed, with agriculture and low density residential as the primary uses.

### T3 Suburban

Transition from the least dense to more dense environments, located between urban and rural transect areas.

### T4 Urban

Includes both historic, innerring neighborhoods and new neighborhoods intended for development in a more intense, urban fashion.

### **T5** Center

Intense, walkable, mixed use areas featuring employment, housing, services, and amenities which should be served by transit.

#### T6 Downtown

The city core; the center of commerce, arts, and government.

#### **D** District

Large areas which accommodate a single land use.

Nashville and Davidson County's transect

## **Community Plans**

Metro Nashville and Davidson County's Community Plans are future planning documents adopted by the Planning Commission that describe the role each community plays in realizing the overall vision of the County: what residential, commercial, office and open space each community will house for the County.

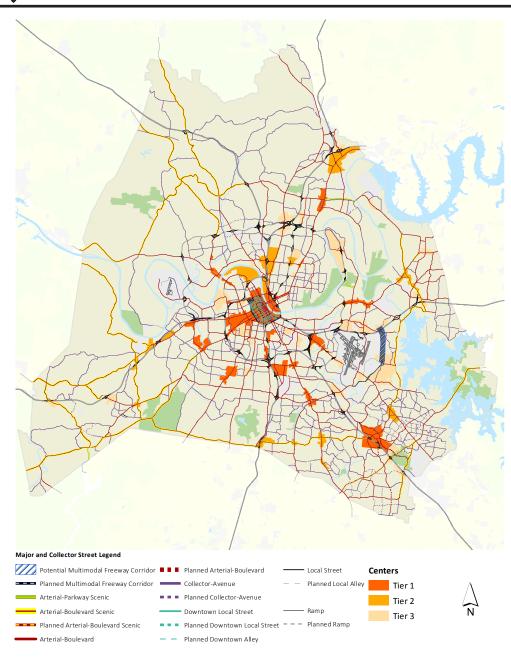

Each community's plan is generally updated every 5-10 years, and all have been recently updated as part of NashvilleNext. The process for updating community plans is open to the public, and includes significant community participation.

Community Plans are prepared by the Planning Department in cooperation with residents, business owners, institutional representatives and developers.

Specific information on each Community Plan is online at <a href="https://www.nashville.gov/Planning-Department/Community-Planning-Design/Community-Plans.aspx">https://www.nashville.gov/Planning-Department/Community-Plans.aspx</a>

## Major and Collector Street Plan

The Major and Collector Street Plan (MCSP) is a comprehensive plan and implementation tool for guiding public and private investment in the major streets that make up the backbone of the city's transportation system.

The MCSP is part of *Access Nashville 2040*, volume V of NashvilleNext, which guides a multimodal transportation network tied to land use decisions.

It relies heavily on two concepts:

- Context Sensitive Solutions is a collaborative, interdisciplinary approach to developing a transportation system which fits its physical setting and preserves scenic, aesthetic, historic, and environmental resources while maintaining safety and mobility.
- Complete Streets is a policy initiative to build streets that accommodate pedestrians, cyclists, motorists, transit users, and people of all ages and abilities.

The Planning Department's interactive map of the Major and Collector Street Plan is online at

https://maps.nashville.gov/MCSP/.

The complete Plan and *Access Nashville 2040* are online at <a href="http://www.nashville.gov/Government/NashvilleNext/The-NashvilleNext-Plan.aspx">http://www.nashville.gov/Government/NashvilleNext-Plan.aspx</a>.

## nMotion

WeGo Public Transit developed the nMotion Plan, a long-term plan for a transit system in Middle Tennessee. nMotion establishes a framework for the types of transit and magnitude of system changes that might be advanced with more study in the future. It provides a vision for how projects and services come together into a comprehensive transit network and ways to improve short term implementation.

nMotion was approved by the Metro Planning Commission on August 24, 2017. Recommendations for countywide high capacity transit service have been incorporated into the Major and Collector Street Plan, the Growth and Preservation Concept Map, and future transit facilities into each successding communityplanning study.

Recommendations outlined within nMotion can be viewed on the Major and Collector Street Plan website under the nMotion layer at:

https://maps.nashville.gov/MCSP/

The complete nMotion Plan is online at:

http://www.nmotion.info/

## WalknBike

The Metro Planning Commission adopted the WalknBike Plan on August 24, 2017, updating Metro's 2008 Strategic Plan for Sidewalks and Bikeways. It details short and long term strategies to improve connectivity for people walking and bicycling and prioritizes future sidewalk and bikeway construction throughout the county based upon the NashvilleNext Growth and Preservation Concept Map and WeGo Public Transit's nMotion Plan. Metro Public Works and Metro Planning jointly worked on the update, to align sidewalk and bikeway investment scores to future growth areas based on access to schools, transit, destinations, sidewalk gaps, and high crash locations and to foster improved communication and transparency with project tracking.

Recommendations for improved sidewalk infrastructure and new and enhanced bikeways have been incorporated into the MCSP and each succeeding community planning study.

The Metro Public Works' interactive map for the Sidewalks Project Tracker is online at <a href="https://mpw.nashville.gov/sidewalks/">https://mpw.nashville.gov/sidewalks/</a> as well as the Bikeways Project Tracker at <a href="https://mpw.nashville.gov/bikeways/">https://mpw.nashville.gov/bikeways/</a>.

The complete WalknBike Plan is online at  $\frac{https://www.nashville.gov/Public-Works/WalknBike.aspx}{}.$ 

## Planning and the Capital Improvement Budget (CIB)

Any capital improvement that Metro makes must be included in the Capital Improvement Budget. Capital improvements include any building, structure, work, or improvements with a life over 5 years and a cost greater than \$50,000. However, the CIB does not allocate funding; inclusion in the CIB does not guarantee that a project will be funded. The CIB only identifies what capital projects Metro could fund in the following year. Project funding must be allocated through a separate process. General obligation bonds fund most projects. Council authorizes GO bonds, usually through a capital spending plan.

Council Rule 17 sets the process for Councilmembers to request projects in the CIB. Members submit project requests to the Planning Department by October 15 for possible inclusion in the following year's CIB. Planning staff distribute requests to the Departments that would carry out the project. Departments assess each request to estimate its cost and alignment with any Department master plan or project. Planning compiles Department responses into a report provided to Council on December 1. In January, Council's Planning, Zoning, & Historical and Budget & Finance Committees meet together to prioritize Council requests.

Each year, the Planning Commission prepares the CIB. The Commission submits the list to the Mayor sixty days before the budget year begins on July 1. The Mayor submits the CIB to Council by May 15; Council must act on the CIB by June 15.

Planning Department staff contact: Greg Claxton gregory.claxton@nashville.gov (615)862-7162

## **Development Applications - The Review Process**

The Planning Department staff reviews, and coordinates other departments' review of, applications for various development-related activities. Planning Department staff then prepares a recommendation for the Planning Commission. The Metropolitan Council is the final decision-making body on zone changes, overlay districts, and mandatory referrals, and is guided but not bound by the Planning Commission's recommendation. The Planning Commission makes final decisions on subdivision plats, performance bonds for development, and community plans.

## Zone changes

Zone changes involve rezoning property from one zoning district to another or amending text in the Zoning Code. Planning staff makes recommendations to the Planning Commission based on Community Plans and application of the Zoning Code. The Metropolitan Council has final authority over zone changes. A simple majority on third reading is required for Council approval. Twenty-seven votes are required to override a recommendation of disapproval by the Planning Commission.

## Zoning overlay districts

Zoning overlay districts establish special standards and regulations in a specific area, to provide greater design flexibility and/or to preserve certain features or resources of the community. Application of an overlay district follows the zone change process.

Specific descriptions of various types of overlays are online at our Zoning & Subdivision webpage:

https://www.nashville.gov/Planning-Department/ Rezoning-Subdivision.aspx

## **Subdivision plats**

Subdivision plats involve division of a tract or parcel of land into two or more lots. State law contains two separate sets of rules for this action, under "regional" and "municipal" planning. Both are in effect for Metro, and whenever they disagree the municipal section applies.

In both cases, a "subdivision" is defined as a tract or parcel of less than five acres, so many landowners think they are exempt from filing a subdivision plat if their tract or parcel is five acres or greater; however, it depends on several different factors, including availability of public utilities and the number of parcels which share driveway access. The Planning Commission has final approval over subdivision plats and is only appealable to Chancery Court.

## Mandatory referrals

Mandatory referrals are processes which municipalities must follow as mandated by state law, and which must be referred to the Planning Commission for its review and approval. These referrals involve construction, land use, and/or improvements on land owned or controlled by the Metropolitan Government.

The five types of mandatory referrals include:

- Metro property may involve public schools, greenways, parks, water lines, sewer lines, road widenings, office space for Metro departments or agencies, tax-delinquent properties, and transfers to MDHA, Parks, or Metro Public Schools.
- Easement abandonments may be for water lines, sewer lines, or improved drainage facilities.
- Encroachments into the public right of way can be above or below ground for signs, flags, awnings, or fiber-optic cable.
- Street/Alley Closures may consolidate properties for development or provide greater security for businesses, schools, religious institutions, and residences.
- Street renamings may be done to honor someone who has been deceased for two or more years, or to improve E-911 service.

The Metropolitan Council has final authority over mandatory referrals.

#### **Performance Bonds**

Requiring developers to post a bond before recording a plat protects Metro Government and the community if the developer goes bankrupt or fails to construct improvements to Metro standards. Performance bonds are required by state law. Performance bonds are required for final plats that propose to install on- or off-site public improvements, for example, streets, fire hydrants, water and sewer lines, sidewalks, traffic signs, or traffic signals.

It is in Metro's, and the community's, interest to have the work properly completed rather than collect a bond. Bonds are released once all improvements are made and inspected and ready to be publicly maintained. The Planning Commission has final authority over performance bonds.

#### **Plan Amendments**

As described earlier, Community Plans guide growth, development, and preservation throughout Nashville and Davidson County. The county is divided into fourteen separate communities, which is part of the countywide General Plan, NashvilleNext.

Each Community Plan establishes the Community Character policies for its plan area, and review and approval of any zone change is based on those policies.

An applicant who wishes to proceed with a zone change that is in conflict with the Community Character policy for a property may file for a Community Plan Amendment. Staff will coordinate with the district Councilmember to schedule a community meeting before the item is presented to the Planning Commission for consideration unless the change is considered to be a housekeeping amendment.

## What Does Each Zoning District Allow?

Land development and planning requirements are included in Title 17 of the Metropolitan Code, available online at <a href="https://www.municode.com/library/tn/metrogovernment">https://www.municode.com/library/tn/metrogovernment</a> of nashville and davidson county/codes/code of ordinances.

## **Zoning classifications**

## **Agricultural**

- AG (agricultural, requiring a minimum lot size of 5 acres and intended for uses that generally occur in rural areas, including single-family, two-family, and mobile homes)
- AR2a (agricultural, requiring a minimum lot size of 2 acres and intended for uses that generally occur in rural areas, including single-family, two-family, and mobile homes)

## Single-family residential

- RS80 (low density residential, requiring a minimum 80,000 square foot lot and intended for single-family dwellings)
- RS40 (low density residential, requiring a minimum 40,000 square foot lot and intended for single-family dwellings)
- RS30 (low density residential, requiring a minimum 30,000 square foot lot and intended for single-family dwellings)
- RS20 (low-medium density residential, requiring a minimum 20,000 square foot lot and intended for singlefamily dwellings)

- RS15 (low-medium density residential, requiring a minimum 15,000 square foot lot and intended for single-family dwellings)
- RS10 (low-medium density residential, requiring a minimum 10,000 square foot lot and intended for single-family dwellings)
- RS7.5 (medium density residential, requiring a minimum 7,500 square foot lot and intended for singlefamily dwellings)
- RS5, RS5-A\* (medium density residential, requiring a minimum 5,000 square foot lot and intended for singlefamily dwellings)
- RS3.75, RS3.75A\* (medium density residential, requiring a minimum 3,750 square foot lot and intended for single-family dwellings)

### One-family and two-family residential

- R80 (low density residential, requiring a minimum 80,000 square foot lot and intended for single and twofamily dwellings)
- R40 (low density residential, requiring a minimum 40,000 square foot lot and intended for single and twofamily dwellings)
- R30 (low density residential, requiring a minimum 30,000 square foot lot and intended for single and twofamily dwellings)
- R20 (low-medium density residential, requiring a minimum 20,000 square foot lot and intended for single

- and R15 (low-medium density residential, requiring a minimum 15,000 square foot lot and intended for single and two-family dwellings)
- R10 (low-medium density residential, requiring a minimum 10,000 square foot lot and intended for single and two-family dwellings)
- R8, R8-A\* (medium density residential, requiring a minimum 8,000 square foot lot and intended for single and two-family dwellings)
- R6, R6-A\* (medium density residential, requiring a minimum 6,000 square foot lot and intended for single and two-family dwellings)

## Multi-family residential

- RM2 (low density residential, intended for multi-family dwellings at 2 units per acre)
- RM4 (low-medium density residential, intended for multi-family dwellings at 4 units per acre)
- RM6 (medium density residential, intended for multi-family dwellings at 6 units per acre)

- RM9, RM-9A\* (medium density residential, intended for multi-family dwellings at 9 units per acre)
- RM15 (medium-high density residential, intended for multi-family dwellings at 15 units per acre)
- RM20 (medium-high density residential, intended for multi-family dwellings at 20 units per acre)
- RM40, RM40-A\* (high density residential, intended for multi-family dwellings at 40 units per acre)
- RM60, RM60-A\*(high density residential, intended for multi-family dwellings at 60 units per acre)
- RM80-A\* (high density residential, intended for multi-family dwellings at 80 units per acre)
- RM100-A\* (high density residential, intended for multi-family dwellings at 100 units per acre)

#### Mobile Home Park

MHP (Mobile Home Park, requiring a minimum 2 acre lot size and intended for mobile homes at 9 units per acre)

#### Mixed-Use

- MUN, MUN-A\* (Mixed Use Neighborhood, intended for a low intensity mixture of residential, retail, and office uses)
- MUL, MUL-A\* (Mixed Use Limited, intended for a moderate intensity mixture of residential, retail, and office uses)
- MUG, MUG-A\*(Mixed Use General, intended for a moderately high intensity mixture of residential, retail, and office uses)
- MUI, MUI-A\*(Mixed Use Intensive, intended for a high intensity mixture of residential, retail, and office uses)

### Office & Residential

- OR20, OR20-A\* (office and residential, intended for office and/or residential multi-family uses up to 20 dwelling units per acre)
- OR40, OR40-A\* (office and residential, intended for office and/or residential multi-family uses up to 40 dwelling units per acre)
- ORI, ORI-A\* (Office and Residential Intensive, intended for high intensity office and/or residential multi-family uses with limited retail)

#### Office

- ON (Office Neighborhood, intended for low intensity office uses)
- OL (Office Limited, intended for moderate intensity office uses)
- OG (Office General, intended for moderately high intensity office uses)

#### Commercial

- CN, CN-A\* (Commercial Neighborhood, intended for very low intensity retail, office, and consumer service uses which provide for the recurring shopping needs of nearby residential areas)
- CL, CL-A\* (Commercial Limited, intended for retail, consumer service, financial, restaurant, and office uses)
- CS, CS-A\* (Commercial Service, intended for a wide range of commercial service related uses including low intensity manufacturing and storage facilities)
- CA (Commercial Attraction, intended for a wide range of amusement, recreational, and retail support uses typically associated with the tourist industry)

- CF (Core Frame, intended for a wide range of parking and commercial service support uses for the central business district)
- DTC (Downtown Code zoning district found only in Downtown Nashville, intended for a broad range of residential and non-residential activities with an emphasis on urban design - the relationship between the street, building and open space for efficient land use, increased transit, and the creation of vibrant and safe pedestrian streetscapes)

## **Shopping Centers**

- SCN (Shopping Center Neighborhood, intended for a limited range of retail, office, and consumer service uses which provide for the recurring shopping needs of nearby residential areas)
- SCC (Shopping Center Community, intended for moderate intensity retail, office, and consumer service uses for a wide market area)
- SCR (Shopping Center Regional, intended for high intensity retail, office, and consumer service uses for a regional market area)

#### **Industrial**

- IWD (Industrial Warehousing/ Distribution, intended for a wide range of warehousing, wholesaling, and bulk distribution uses)
- IR (Industrial Restrictive, intended for a wide range of light manufacturing uses at moderate intensities within enclosed structures)
- IG (Industrial General, intended for a wide range of intensive manufacturing uses)

## Specific Plan (SP) Zoning

In October 2005, the Metropolitan Council responded to requests from development professionals and community members by adopting an ordinance establishing "Specific Plan District" zoning, generally known as SP. SP is a base zoning district, not an overlay. An SP establishes design standards for specific properties which are written into the zone change ordinance, providing additional flexibility for developers and greater certainty for Council and community members that the final product will match the plans promised to the community.

Developers who use SP zoning must still follow historic and redevelopment guidelines.

They must also follow subdivision and stormwater regulations and the goals and objectives of the General Plan.

A 2013 ordinance revising the SP enabling legislation is online at <a href="https://www.nashville.gov/mc/ordinances/term\_2011\_2015/">https://www.nashville.gov/mc/ordinances/term\_2011\_2015/</a> bl2013 516.htm

A regularly updated and searchable list of all approved SP districts is online at <a href="https://www.nashville.gov/Planning-Department/Rezoning-Subdivision/SP-Districts.aspx">https://www.nashville.gov/Planning-Department/Rezoning-Subdivision/SP-Districts.aspx</a>

### **Zoning Overlay Districts**

Original or "base" zoning is identified for overlay districts and remains in effect when zoning overlays are applied.

Planned Unit Developments (PUDs) and Urban Design Overlays (UDOs) define specific areas and set design standards for their development. A list of existing UDOs is at <a href="https://www.nashville.gov/Planning-Department/Rezoning-Subdivision/Urban-Design-Overlay/Existing-Urban-Design-Overlays.aspx">https://www.nashville.gov/Planning-Department/Rezoning-Subdivision/Urban-Design-Overlay/Existing-Urban-Design-Overlays.aspx</a>

The **Institutional Overlay** provides development rules for specific areas but, unlike UDOs, institutional overlays work in cooperation with existing residential zoning. A list of existing institutional

overlays is at <a href="https://www.nashville.gov/">https://www.nashville.gov/</a>
Planning-Department/Rezoning-Subdivision/
Institutional-Overlay.aspx.

The **Contextual Overlay** limits height, footprint, and placement of construction to maintain context with existing, surrounding structures. This overlay requires community consensus and Councilmember support. A list of existing Contextual Overlays is at <a href="https://www.nashville.gov/Planning-Department/Rezoning-Subdivision/Contextual-Overlays.aspx">https://www.nashville.gov/Planning-Department/Rezoning-Subdivision/Contextual-Overlays.aspx</a>

The **Historic Overlay** preserves historic properties and communities. Application for this overlay is first made to the Metro Historic Zoning Commission. <a href="https://www.nashville.gov/Historical-Commission/About/Historic-Zoning-Commission.aspx">https://www.nashville.gov/Historical-Commission/About/Historic-Zoning-Commission.aspx</a>

The **Corridor Design Overlay**, or CDO, is a zoning tool that requires specific design standards for development in a designated area. The Corridor Design Overlay lies on top of the current base zoning and allows for development standards above and beyond those in the base zoning. More information regarding Corridor Design Overlays can be found at <a href="https://www.nashville.gov/Planning-Department/Rezoning-Subdivision/Corridor-Design-Overlays.aspx">https://www.nashville.gov/Planning-Department/Rezoning-Subdivision/Corridor-Design-Overlays.aspx</a>.

## **MDHA Redevelopment Districts**

These districts, created by the Metropolitan Development and Housing Authority with Council approval, are intended to ensure the use and long-term viability of the areas that they affect. See page 46 more information. http://www.nashville-mdha.org/

TERMINAL/DISTRIBUTION WARHOUSE	7	0.1%	45	0.5%	\$18,379,600.00	0.8%

## Why these don't add up to 100%:

Metro has 99 separate land-use codes, and some of them apply to only a few parcels in this district, or none at all; this table represents the applications which are most widely used in this district.

## Online Maps & the Development Tracker

Any printed list of ongoing development activity would be out of date the day it was put on paper. To address this issue, the Planning Department created the "Development Tracker," an interactive map showing recent development activity.

There's a link on the Planning Department front page at <a href="http://www.nashville.gov/Planning-Department.aspx">http://www.nashville.gov/Planning-Department.aspx</a>, or you can access the Tracker directly:

http://maps.nashville.gov/ DevelopmentTracker/

New applications go onto this site as soon as they are filed, and remain there as they pass through the Planning Commission and the Metropolitan Council. You can also see how different Metro departments have reviewed the application, and any changes made throughout the process; just click on any of the markers, or enter an address in the Development Tracker search field.

The Codes Department provides an online list of recently issued building permits at

http://www.nashville.gov/Codes-Administration/Construction-and-Permits/ Daily-Reports.aspx. The Planning Department offers a variety of easily accessible maps which provide a wide range of useful information from ownership and zoning data to recent development activity and political district boundaries. Some of the most often used maps include:

<u>Parcel Viewer</u> ("Metro Maps")
Parcel information and a variety of map layers

SP Zoning

Approved specific plans and related information

Major & Collector Street Plan

Outlines comprehensive planning and implementation strategy for major streets

Road and school closings, emergency shelter locations, and other emergencyresponse information in real time

**Parks Finder** 

Guides users to parks and recreational opportunities

# USD & GSD: One County, Two Tax Structures

Davidson County has two separate service (taxing) districts: the general services district and the urban services district. Services (including police and fire protection, sidewalks, street lights, and trash collection) are required to be greater within the USD, but the property tax rate is slightly higher.

When the Metropolitan Government was originally formed, the Nashville city limits formed the boundary of the Urban Services district and the rest of the county comprised the General Services district. Since then, as permitted by the Metro Charter and state law, several properties in the GSD have been annexed into the USD.

Today, the General Services District (GSD) encompasses about two-thirds of the county's land area and more than 75,000 properties. The Urban Services District (USD) encompasses about one-third of the county's land area and over 134,000 properties.

# **Fostering Strong Neighborhoods**

Neighborhoods are the heart and soul of our city. Fostering strong neighborhoods was one of the seven guiding principles which shaped the creation of the NashvilleNext long-range plan. Currently, over 300 organized groups are working toward their community visions in our city, including many which were identified through our public outreach during the preparation of NashvilleNext.

The Planning Department's Neighborhoods webpage: <a href="https://www.nashville.gov/Planning-Department/Community-Planning-Design/Neighborhoods/Neighborhood-Links.aspx">https://www.nashville.gov/Planning-Department/Community-Planning-Design/Neighborhoods/Neighborhood-Links.aspx</a>

The Police Department's Precincts Community Coordinators have neighborhood contacts throughout each precinct area:

https://www.nashville.gov/Police-Department.aspx

**Neighbor 2 Neighbor**, a local non-profit established to assist neighborhoods, also has neighborhood contact information:

# Floodway and Floodplains

# Stormwater Management Committee

The Stormwater Management Committee reviews and approves variances from the Metro Stormwater Management Manual, which sets forth Metro's stormwater management policy, guidelines, and standards for development. The primary goal of the policy is to protect human life, health, and property.

Variance requests deal primarily with:

- Floodway and/or floodway buffer disturbance
- Stream buffer disturbance
- Stormwater discharge quality/quantity via detention
- Uncompensated fill in the floodplain
- Minimum first floor elevation

The Stormwater Management Committee is made up of seven members who serve four-year terms. It meets at 8:00 a.m. on the first Thursday of each month at the Metro Office Building Development Services Conference Room, 800 Second Avenue South.

#### **Members**

# **Board of Zoning Appeals**

The Metropolitan Board of Zoning Appeals (BZA) reviews and approves variances to zoning code standards, special exception permits, changes to non-conforming uses and structures, and appeals of a zoning administrator's interpretation of the zoning code.

The Board of Zoning Appeals (BZA) is made up of seven members who serve five-year terms. A member may serve no more than two consecutive terms. Annually in May, the members select a chair and vice-chair from their membership. To be eligible to serve, a nominee may not hold any public office or be employed by the Metro Government. Members are appointed by the Mayor and confirmed by the Metro Council. Staff is led by the Zoning Administrator, who interprets the Zoning Code's application to specific sites and conditions.

The BZA meets at 1 pm on the first and third Thursday of every month, unless otherwise scheduled by the Board. Meetings are held in the Sonny West Conference Center on the ground floor of the Howard Office Building, 700 Second Avenue South.

The Board's website at <a href="https://www.nashville.gov/">https://www.nashville.gov/</a>

# **Urban Zoning Overlay**

The Urban Zoning Overlay district, or UZO, was created in 2000 to improve development opportunities in the older urban areas of Nashville built prior to World War II, and to permit development that complemented historic development patterns in these areas.

For example, commercial buildings in the UZO area are often built to the edge of the sidewalk, lots are smaller, and buildings are usually closer together. Most neighborhoods have alleys, with garages behind houses instead of attached to them.

The UZO primarily guides new development or major renovations to a property.

Its standards apply to building setbacks, height, parking, landscaping, and buffers.

Changes to the UZO involve amendments to the text of the zoning code or a rezoning to include additional property, initiated by the Metro Council or Planning Commission.

# **MDHA Redevelopment Districts**

Twelve redevelopment districts provide a special focus on renovating and rebuilding particular areas of Metro Nashville.

Each district includes a redevelopment plan which guides building design and specific land use within those areas; the plans also identify relocation and development financing options, and outline how land may be acquired by the Metropolitan Development and Housing Authority.

All amendments require a public hearing before the Metro Council, which is the final approval body. The MDHA Design Review Committee oversees development within the twelve districts.

#### **MDHA Executive Director**

James Harbison jharbison@nashville-mdha.org

### **MDHA Director of Urban Development**

Joe Cain jcain@nashville-mdha.org

http://www.nashville-mdha.org/(615)252-8400

# **MDHA Design Review Committee**

Design review is one of the primary ways by which the Metropolitan Development and Housing Agency (MDHA) stabilizes property values in redevelopment districts and ensures a high standard of quality for new development.

MDHA's Design Review Committees meet on the first and third Tuesdays of each month to review projects ranging from signage and home renovation to new high-rise construction within Council-approved redevelopment districts. The committees ensure that any new development complements its context, employs durable building materials, preserves Nashville's history, and fosters a sense of urban community. MDHA reviews exterior building elevations and site plans, but not interior work.

The Design Review Committees for each redevelopment district follow a set of basic principles to determine the appropriateness of a development project, including:

- Contextual siting
- The importance of pedestrian environments
- Architectural sensitivity
- Respect for historic structures
- Durability of building materials

Committee members are appointed by MDHA's Executive Director. Contact Redevelopment District Coordinator Parker Brown at (615)252-3750 for additional information.

MDHA Design Review Principles: <a href="http://www.nashville-mdha.org/design-review/">http://www.nashville-mdha.org/design-review/</a>

## Metropolitan Historical Commission

The Metropolitan Historical Commission (MHC) and the Metropolitan Historic Zoning Commission (MHZC) share an executive director, staff, and office. The MHC protects Nashville's unique character through educational publications and events and by serving as an informational and review resource for other Metro departments and property owners.

### Responsibilities of the MHC

- Tracking historic properties with evaluation, mapping, and documentation, information primarily used by Planning, Codes and MDHA to plan the future of our community
- Providing the public with informational resources through publications, websites, historical markers, and events, such as an annual awards program and the annual African-American History and Culture conference
- Providing federally mandated review services for MDHA,
- Supporting the work of the county historian
- Providing mandatory local review for National Register of Historic Places nominations.

### **Meetings of the MHC**

Meetings are held at noon on the third Monday of every month at Sunnyside in Sevier Park, 3000 Granny White Pike.

Agendas are available one week prior to the meeting at <a href="https://www.nashville.gov/Historical-Commission/About/Historical-Commission.aspx">https://www.nashville.gov/Historical-Commission/About/Historical-Commission.aspx</a>

# Metropolitan Historic Zoning Commission

The Metropolitan Historic Zoning Commission (MHZC) protects the unique character of Nashville and guides change in historic areas through design review of development within Council-adopted historic overlays.

The MHZC evaluates applications to create new historic overlays, makes recommendations to Metro Council, and serves as a resource to property owners and neighborhoods with informational publications and The Old House Fair, an annual event.

MHZC staff provide design review and related services for Planning, MDHA, Parks, and Codes.

The MHZC meets at 2 pm on the third Wednesday of each month in the Sonny West Conference Center at Metro's Howard Office Building, 700 Second Avenue South. Agendas are sent to Council members via U.S. mail.

# **Historic Zoning Districts**

There are three types of historic overlay districts: historic preservation, neighborhood conservation, and historic landmark. These are zoning districts, and require the Historic Zoning Commission's review and recommendation to the Metro Planning Commission, which in turn recommends to the Metro Council whether or not to adopt the district.

The Historic Zoning Commission also adopts historic overlay design guidelines and reviews and approves preservation permits in historic and conservation districts for new construction, alterations, additions, and repair, relocation and demolition of structures.

# **Traffic & Parking Commission**

The Traffic & Parking Commission reviews and approves permanent street, sidewalk, and alley closures, manages all public parking meters and garages, and establishes regulations for on-street parking, stop signs, traffic signals, posted speed limits, vehicle size restrictions, and traffic direction on streets. The Commission also reviews any council ordinance affecting traffic control or use of public rights-of-way, and hears appeals of staff decisions regarding traffic control devices or driveway access.

The Commission's decision is final and cannot, with one exception, be appealed; street and alley closures are approved by the Metro Council. Meeting agendas are distributed to the media, neighborhood groups (as needed), and the district councilmember in whose district a request is located ten days before the Monday commission meeting.

The Traffic and Parking Commission meets at 3:00 p.m. the second Monday of every month, in the Sonny West Conference Center at the Howard Office Building, 700 2nd Avenue South.

Requests to appear before the Commission for a public hearing or for action on a specific agenda item are to be received no later than three weeks prior to the meeting where the applicant intends to appear.

## Metropolitan Board of Parks & Recreation

The Parks and Recreation Board supervises, controls and operates Metro Nashville/Davidson County's parks and recreation system.

The Board's responsibilities include:

- Setting fees and charges within the administration of the Parks and Recreation Department
- Formulating the policies to be followed in the administration of the parks and recreation system
- Employing, subject to the Civil Service provisions of the Metropolitan Charter and within its budget appropriation and other available funds, a director of Parks and Recreation

The Board also recommends to the Council:

- The sale of any lands owned by the Metropolitan Government for Park or Recreation purposes
- The acquisition by condemnation of any additional lands needed for Park or Recreation purposes
- The acceptance of any gift of lands offered for Park or Recreation purposes

The Board is made up of seven members. Five members serve a five-year term, while two members serve a one-year term. The two members representing the Board of Education and the Metropolitan Planning Commission are appointed by their respective bodies. Annually in April, the members select a chair and vice-chair from their membership who serve a one-year term. The vice-chair is the chair-elect for the succeeding year. Members are appointed by the Mayor, and confirmed by a majority of the Metro Council.

The Parks Board meets at noon on the first Tuesday of each month at the Metro Parks conference room, 2565 Park Plaza. Its decisions are final and cannot be appealed to any other commission or board, including the Metro Council.

# **Greenways and Open Space Commission**

The Greenways Commission is a division of the Department of Parks and Recreation. The Commission identifies locations, develops long-range plans, prioritizes greenway projects and builds trails within Davidson County, aided by the Greenways staff, who review appeals filed with the Stormwater Management Committee for floodway buffer encroachments, variances filed with the Board of Zoning Appeals affecting existing or planned greenways, and subdivision plats and zone changes filed with the Metro Planning Department for greenway trail locations and improvements.

The Commission is made up of sixteen members who serve three-year terms, excepting the Metro Councilmembers, who serve a two-year term; there is no limitation on the number of consecutive terms a member may serve. Members must be residents of Davidson County. Eight members are appointed by the Mayor, four are members of the Metropolitan Council, and four represent the Park Board, Planning Commission, Metropolitan Development & Housing Agency, and Public Works.

Meetings are held at varied times and locations - a schedule is online at <a href="https://www.nashville.gov/Parks-and-Recreation/Greenways-and-Open-Space/Greenways-and-Open-Space-Commission.aspx">https://www.nashville.gov/Parks-and-Recreation/Greenways-and-Open-Space-Commission.aspx</a>

As an advisory body, the Commission's decisions are recommendations to the Metro Board of Parks and Recreation, Stormwater Management Committee, Board of Zoning Appeals, Metro Planning Commission, and Metro Council. Any aggrieved party may appeal to the appropriate final decision-making body.

# **Regional Transportation Planning**

The Greater Nashville Regional Council (GNRC) houses the metropolitan transportation planning functions of the greater Nashville region. As the federally-designated transportation planning agency, it serves over 1.5 million residents in Davidson, Maury, Robertson, Rutherford, Sumner, Williamson, and Wilson counties. GNRC facilitates strategic planning for the region's multimodal transportation system by serving as a forum for collaboration among local, state and Federal transportation officials, transit agencies, the business community, and residents and stakeholders across the multi-county planning area. GNRC regularly oversees regional planning activities and allocates Federal funds for regional transportation needs.

GNRC annually adopts a Unified Planning Work Program (UPW) that directs the activities of GNRC staff and resources for a fiscal year. The Transportation Improvement Program (TIP) is regularly developed and amended to be fiscally constrained. The TIP is a four year work program that lists all regionally significant and federally-funded transportation projects and services in the planning area. Any project in the TIP must be consistent with, or be selected from the Regional Transportation Plan (RTP). The RTP is a comprehensive set of strategies aimed at improving livability, sustainability, prosperity, and diversity of Middle Tennessee through investments in all modes of transportation and in close coordination with land use planning. GNRC will update the RTP beginning in the fall of 2019 through 2020.

Executive Director
Michael Skipper, AICP (615)862-7204
skipper@nashvillempo.org

Deputy Director Michelle Lacewell, APR (615)880-2452 lacewell@nashvillempo.org

http://www.nashvillempo.org/

Metro Planning, Metro Public Works, and WeGo Public Transit staff participate in regular meetings of the Technical Coordinating Committee, and Metro Nashville's Mayor and Vice Mayor are designated members of the Transportation Policy Board.

Similar organizations carry out the metropolitan transportation planning process throughout the United States in all urbanized areas of more than 50,000 people. They have the authority to plan, prioritize, and select transportation projects in regions for Federal funding and to coordinate any major transportation initiative that has significance to the region.

More information about GNRC and its programs can be found at <a href="https://www.gnrc.org">www.gnrc.org</a>.
